Experience

Frontend Developer Internship | Certificate   Oct 2022 - Current
Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading stategabs, pagination and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

Frontend Developer Support   Nov 2021 - Current
Frontend Simplified

- Supported 1,000+ students using HTML, CSS, Flexbox, JavaScript and React best practises
- Utilized debugging best practises using Google Chrome inspect element tooling
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests

Projects

Personal Website | Website | GitHub
- My personal website highlights my programming skills and also contains the source code and website links for all my projects below.

Twitter Clone | Website | GitHub
- Developed a social media app with functionality (Posting Tweets)

Library React Website | Website | GitHub
- Integrated Google's API to create a real-world search engine to sort News, Images and Videos.

NFT Internship Project | Website | GitHub
- On this website I created every notable feature including all API features, all skeleton loading states, carusale wheels, animations, entire author detail, and NFT detail pages.

JavaScript Only Website | Website | GitHub
- Created a website displaying my abilities in JavaScript only, animations, and using gradient colors.
